

WELCOME!

WiFi

Each Guest Apartments is equipped with a high-speed wireless network. The network name is the apartment number (e.g. "Apt_2G" or "11B"); the password is "bemyguest" (no quotes).

Apple TV

For your entertainment needs, we've installed an AppleTV in each suite.

Siri Remote

You should find the Siri Remote for the Apple TV connected to an lightning cable plugged into the television. Please return the remote to this cable on this departure.

Protip: If you've forgotten your charger, you can use this cable to charge your iPhone (it won't provide enough power to charge an iPad).

Remote Tips

- The touch surface has accelerated swiping, meaning that a faster swipe results in faster on-screen scrolling.
- Press the Menu button once to go back.
- Press and hold the Menu and Home buttons simultaneously to restart the Apple TV.
- Press the Home button once to return to the Home screen from anywhere.
- Press the Home button twice quickly to bring up the App Switcher, which displays all apps open. Swipe up on the Siri Remote's touch surface to force close an app.
- Press the Home button three times quickly to access VoiceOver.
- Hold down the Home button to place the Apple TV in Sleep mode.
- Hold down the Siri button to use Siri.
- Press the Siri button once and wait to view a list of commands you can ask Siri.

If you prefer, you can install **Apple TV Remote by Apple**

<https://appsto.re/us/rYfybb.i> on your iPhone or iPad. Once you're on the wifi network, open the app & the Apple TV should appear.

Enter the code that appears on the television to pair your phone.

Channels

We've preloaded a suite of apps that provide free news, network television or access to your subscription services.

Bloomberg	Free live news
CBS News	Free live news
Fast Company Network	Free tech-related news
Reuters TV	Free live & recorded video news
The Weather Channel	Weather forecasts
ABC	Free full episodes (some content unavailable)
Cartoon Network	Free full episodes (some content unavailable)
CBS	Free full episodes (some content unavailable)
CW	Free full episodes (some content unavailable)
NBC	Free full episodes (some content unavailable)
Classix	Free classic movies (some content unavailable)
Hulu	Sign into your account for your Hulu content
Netflix	Sign into your account for your Netflix content
Pandora	Sign into your account for your Pandora content
YouTube	Free internet video; Sign into for your premium content

If you choose to sign into any apps, please remember to sign out on your departure.

AirPlay

Once you've joined the wireless network, you can mirror most iPhone / iPad apps to the Apple TV. Swipe up from the bottom and choose AirPlay Mirroring  from Control Center.
Note: Some apps will not allow their content to be mirrored.

Macintosh computers made after 2013, with OS X 10.8 (Mountain Lion) or later can also mirror their content to Apple TV. Click the AirPlay icon  in the menu bar and choose the Apple TV.

Playing your content

We recommend using one of the AirPlay to play movies, tv shows or music that you've purchased. You are also able sign into your Apple account on the Apple TV & stream your content directly from Apple.

To do this:

1. Open the System folder on the Apple TV home screen and choose Settings
2. Select Accounts, and choose "iTunes and App Store"
3. Select "Add New Apple ID"
Please do NOT Sign Out [REDACTED] — it's required for updates to install!
4. Sign in with the email & password Apple has on record for you.
5. Return to the home screen and select the movies, tv shows, Apple Music or App Store icons to find your content.

If you choose to sign into your Apple ID account, please remember to sign out on your departure.
