I intend to travel to Moscow, Russia April 24-28. I also must travel to Paris France April 12-19.

Due to prolonged delays expected at the Russian embassy in processing my visa and documents as well as my need for immediate travel to Paris France on April 12-19 it is impossible for me to complete my trips using my current passport.

Consequently, I am requesting the issuance of a second passport to facilitate my travel to the countries mentioned above. I understand this passport will be limited and that it may be renewed at the end of that period.
