Amp Upgrade Options for Great Room System

As I wasn't sure the level of quality you were hoping for in the Great Room system, I decided to put together a couple of options at different price points. My recommendation is to eliminate the Rane EQ Processor and DBX pieces to shorten the signal path, using the Marantz Audyssey processor for room correction. If I'm way off base in relation to the range you want to spend, just let me know.

Option 1

	EACH	EXT	W DISCOUNT
3 McIntosh MC302 300 watts/channel stereo amplifier http://www.mcintoshlabs.com/us/Products/pages/ProductDetails.aspx?CatId=amplifiers&ProductId=MC302	\$6,500.00	\$19,500.00	\$16,575.00

Option 2
