Married

We are currently living in Miami, Florida. We are seeking employment as a couple in a long term position as a house manager or domestic couple. Together we are a responsible and trustworthy couple with excellent references. As a team we will provide quality service.

We come from service-orientated backgrounds. We have extensive experience in the super yacht industry and in private homes. We are looking to leave the yachting industry to peruse a land based job. We want to be stable and secure in a position that we can grow and excel in.

Our professional history suits the requirements and skills needed to provide excellent service. Security, project management, maintenance, gardening, computers, childcare, chauffeuring, gourmet cooking, and executive housekeeping, combined with the care of super yachts and world travel guarantees us to be a trustworthy asset to any family who may employ us.

We will strive to provide the care and comfort in any home as if it were our own.
