

To Whom It May Concern:

I have known Katy since 2002- when she first starting overseeing the detailing of my boat. She and her company have continued to monitor the aesthetics of my boat ever since. In 2010- the long term caretaker of my property retired and I hired Katy's firm to assist with our home. I have always found her to be meticulous, professional, reliable, and dedicated to any responsibilities we have thrown her way. She has dealt with subcontractors, lighting, furniture, the seasonal opening and closing procedures, my wine collection and doing some repairs herself to some of my wine cellar storage, as well as taking care of our home in our absence. She has always been there whenever we needed her, no matter what the task- large or small. Of everything I have seen, I would highly recommend her to anyone looking for a personal assistant or a manager of their property. If I can provide additional information regarding Katy's abilities- please feel free to contact me. 

Sincerely-
Kenneth P. Meszkat
