One is post marked April 2 from NY, NY and the other May 2 from Westchester, NY. Scott, I think you should address the envelope to Ike Groff and leave off RedHawk completely from the envelope. Still write the check to RedHawk however. This may be what is causing the post office to delay delivery? No need to put a new check for May in your mailbox tonight . If you didn't cancel the April check we can use it for June if you like. Let us know. I'm a huge seller of the post office. They stink.
