Yes, that is the issue for them. I'll let you know tomorrow.

ok...we will just have to make sure on our end that no one enters without someone from the consulate there to accompany them inside...how do we contact your consulate person so we can go in when needed?

Thanx.

Do you need the security to call you before?

I think that what bothered them is that everyone has the code to the apartment . they would like after installing the alarm, that while we are away and somebody has to enter (Tess or maintenance) they will be accompanied inside by a consulate guy who has the code.

Ok?

1. yes - Friday 4 PM.

2. We shall go to Israel on January 19 at night and come back for a month on January 31 early morning.

3. another question. Our israeli security just called me from Israel. As they see that we stay longer periods, they would like to fix an alarm system that will operate while we are not in NY. we ask your permission. they say that the company is a reliable one. they are the ones that made the systems in our consulate in NY and in the consul and military attache home in NY. they are ready to explain and talk to you. The alarm device is a small modern one and should be near the entry door without cables or damaging the walls.

Nili

Of course - Friday is good (though Ehud is much better already).
