Thank you very much.

Barak thinks it weighs only 300 pounds.

Can [REDACTED] put it in the corner where the ventilator is now standing and move a bit the console to the door. It is a piano that can stand in a corner and does not require a lot of room space.

If [REDACTED] can send us a picture of it already in the apartment, Ehud will be delighted.

Really, a great achievement of yours.

After everything is done, please let me know how much I will reimburse....

best regards from Singapore,

Nili

Hi Nili...I was able to hire a mover for the piano for this Friday Nov. 6th! The piano, bench, etc will be picked up by professional movers around 9:30am and driven to the apartment. [REDACTED] will meet the movers in the lobby and go up with them. Is there a particular spot you would like the piano to be placed? It weighs around 550 pounds so would be good to have it where you want it!

Dear [REDACTED]

We purchased via e-bay a small silent piano (I suppose Ehud has talked about it with you).

very important - the seller does not know the identity of the purchaser it is on my previous name: Nili Priell

his name is Brock Sinder

tel no. [REDACTED]

address: [REDACTED] 11795

Except from the piano he has to give the power cord, remote control, books and manual, bench and disks.

We need your help. Can you please contact a mover and arrange the shipping of the small piano **into** the apartment. It will cost between \$300 - \$500 and of course, we shall reimburse you.

If there are any questions, difficulties, please contact me.

thank you,  
warm regards,
