Sorry, I was told only Locksmiths can open safes. I'm on the phone with them now and trying to get an ETA so I can escort them to the room. I will keep you updated on the timing.

Thank you

After 3 pm is ok.

We could not open the safe, so we have nothing inside. It is a safe not only with a combination but with a key hole that's why it is different from the usual hotel safes.

Hi Nili...we can have Merwin come over today after 3pm to have a look at the safe for you...Merwin is cc'd here. Could you please let him know when would be a good time for him to come by? He is asking if you have something already in the safe that you or one of your security people is around when he tries to open the safe for you...I believe it is just a combination safe similar to those in hotels where you put in your own code to open.
