Preva v5.0 Release Communication June, 2015

Your facility will receive the latest Preva software release remotely deployed to your networked P80 consoles on **Monday, June 29th**. With this version you will receive increases in stability and performance.

NEW PREVA® FEATURES

- General Software and Video Optimizations
  - Optimizations have been made to increase stability and performance.

Your P80 consoles will begin downloading the new software automatically on **Monday.** Then, on **Tuesday**, the consoles will be updated at 3 AM local time and be ready to go before the morning rush begins (machines must be left powered on overnight). The download process on **Monday** will happen invisibly to you and your exercisers and will not interfere with the normal use of your equipment; exercisers will be able to enjoy their workouts without interruption while this download process is happening.

If you have any questions, please contact Precor Technical Support [redacted] and we will be happy to assist you.
