Jeffrey,
Paris to NY is running 8+29min (-85kt headwind),. need fuel stop,.
Paris to Banger 7+30min
Banger to NY 1+05min

Paris to Acores 3+16min (-5kt headwind) average
Acores to LSJ 5+10min (+5 kts tailwind) average

I have Marrakesh on standing by for Monday arrival,. Landing permission is granted 24 hours when flight plan is presented to Morocco, should not be a problem to obtain if you elect to go.
I have security guard arranged to guard aircraft while on the ground, threat level according to Universal is 3 out of possible 5.

thx
Larry
