Hi Lesley!

No problem. We can change them. The pole size in Ty's room is 1", the pole size (wood) in the guest room is 1 3/8". Which would you prefer? There is a pretty big price difference between the 1" metal pole and the 1 3/8" pole. Also, attached are some photos of finials. Which would you prefer. I think just plain endcaps might get lost. Just let me know and I will get back to you.

Have a great weekend!!!

Carol

HI Carol! SOOOOOOOO Love the curtains in our bedroom...it was not real sunny out today but they seem to be much better at blocking the light ...I will be able to give them a real test this weekend when I get to sleep in to 7:30-8am ;) But they look fantastic and we will keep them closed for a good week or more...the fabric is beautiful...

Very happy with the curtains themselves in the guest room...but I guess I thought the rods would be polished chrome!/? And I don't know what I was thinking but I really like just plain and simple, like the rods we did in Ty's room. I like the circumference of the rods in the guest room for sure...but is it possible to get a plain, polished chrome rod, with the same circumference and maybe just a ball or end cap finial?

but the curtains work great in there! Let me know what it would entail to change out the rods...Sorry to be picky! Lesley

Hi Lesley,

I hope you like the drapery treatments. Let me know if you have any questions. If you can do me a favor and keep the ones in your bedroom in the closed position that they are in now for a week or so, it would be good. I want the fabric to relax a bit. Thanks!!

Carol

Hi Lesley,

We will be there today around one unless I hear otherwise.

Have a great day!

Hi Lesley,

The snow really messed us up this week, but I should have your treatments today. Can we set up something for one day next week? Let me know what day/time would be good for you.  
Thanks and stay warm!!

Carol
