Hi Katie. Great to know you will not need to credit and recharge!

Yes, someone called me today but I was super busy and told the gal I would call her back but never had an opportunity. I will try them tomorrow or Monday. And yes in sure we can help with getting the sofa apart and for sure will make sure they know which side of the fabric to use on the purple. Thanks!

Hi [REDACTED],

My store manager spoke to another PPG person. Turns out, thankfully they will adjust things on their end. I don't need to return & re sell the fabric.

Lena is still out sick. Either Prince or his daughter should of called you this afternoon to schedule the picking. You and I had spoke of them taking half of the sectional at a time. Would you mind opening the bolts, or have Prince help you? I feel it would be wise to attach a pieces to the sofa & pillows so they know the correct side to use.

Thanks again [REDACTED] for your patience through all of this.
Sincerely, Katie
