There are currently no iPhone 6 Plus' available to pick up from a store in our area...I was told they get shipments every 1-3 days but they never know what they will get until the shipment actually arrives...we can check back or check online for availability near us...

To buy online, we can buy Contract Free w/a T Mobile sim card (sim card can be changed out to any carriers sim card) 16GB \$749
64GB \$849
128GB \$949

You can buy a new 2 year contract with ATT, Sprint or Verizon...all carriers, same price:
16GB \$299
64GB \$399
28GB \$499

If you are purchasing for a person who already has a contract, these prices would change if their phone is not up for replacing...

You can also choose color: Silver, Gold, Space Gray

Did you wish to specify exactly what you would like me to purchase on line?
