It was great to see you again and your house is as beautiful as I imagined. I just loved it! It is also a home which many are not able to achieve with the esthetics. You are so talented, may have to call you from time to time to ask about materials for myself and some of my clients. Everyone still comments on that couch at our farmhouse. So looking forward to that amazing upcoming trip. Down to one listing and one client looking and both have said to enjoy. I feel like a kid skipping school but since most my age are retired I am going to do things while I can. I am lucky I love my job and meeting wonderful clients such as your family is a bonus. The sign is scheduled to ship 10/10. I will be back by then, please let know that it arrived as you expected.
All the Best,
Gail

*thanks for coming today! Great to see you and you always make me feel so good...sweet of you to bring flowers! My mom immediately put them in a vase :) and I can't wait to receive our new sign for our house
take care and have fun on your trip..!*

I will be over around 10:30AM to get the tour. I will give you an update on the sign search. I actually saw the sign you want in front of a house on 106 but have had a challenge finding someone who works in metal in the area. Frontgate does not make one though I thought they did in the past. I am unsure of using just anyone on the internet when I do not know their quality. Will try to call the person who makes our wooden signs for a referral. They are usually very good about recommendations if they cannot do it themselves. Anyway we will get it done! See you tomorrow.

Best,

Gail
