Subject: Mirror for 11J

Date: Tue, 16 Sep 2014 13:26:35 +0000

Hi [REDACTED].the other day while [REDACTED] was cleaning the bedroom of 11J the mirror on the dresser slid and shattered...we need to replace this mirror. Could you please speak to [REDACTED] re what the mirror looked like, go to Home Depot or Home Goods or that other home store (can't remember name but it is close to 71st I think), purchase a similar mirror then attach it to the wall above the dresser in 11J? I don't think any mirrors should be leaning any more like that..it needs to be hung...

You may want to have a look at the dresser and color of the wood before making the purchase ... or if [REDACTED] is at the apartments, she could take a picture and send it to you...

code for 11J is [REDACTED]
