Ok, very good! thank you for answering me on your day off!
I will let Merwin know to expect a call hopefully tomorrow evening...

Hello Lesley,

I am off today so I don't have access to our inventory system. However, I think Mike is still waiting on the transfer of the product from our main warehouse to our delivery warehouse. He gets a shipment Wednesday. He will make the call to schedule in the evening. Once Mike has the product pulled, he works to get it delivered as soon as possible based on Mr Epstein's or Merwin's schedule.

I contacted Mike and I will provide an update once I have it.

HI Nat...Merwin has not received a phone call from the delivery company...might you be able to check up on them and see where we are with setting up and ultimately receiving the Precor?

Thank you, Lesley

Hello Lesley,

Attached in PDF format is the invoice for the Precor EFX 447 Elliptical that Mr. Epstein has ordered. It reflects the model, free installation, and all the delivery information as we discussed.

I have submitted the invoice to our Fitness Transport service, headed by Mike Douglass. Mike is a certified Precor Installer, and given the new console design, I felt it was imperative that the best man for the job be used. Originally I was going to use a different delivery team, but between the quality of their work and their availability, I'd highly recommend Mike.

Mike will call to arrange delivery as soon as he can: it's likely the delivery will be next week as we move inventory. Mike will call once the product is pulled, and he will call Merwin as asked. Mike provides a 2 hour arrival window, and the install may take up to 1 hour.

If you need to check on the status of the delivery, or if you have any questions or concerns, please call me or reply to this Email.

Thank

Nat Gennace
