Hello Angi...I am SO sorry to bother you again! But I am being asked to submit 2 or 3 pictures of the pergola... I guess from different angles...could I send you a few more pictures have you photo shop in the:

Arborvitae trees to hide the columns

Boxwoods (one boxwood next to each Arborvitae)

Wisteria Vines on top

Attached picture is the best one..if you could just add a boxwood to the arborvitae trees in the front like you did on the side that would be great... I will go outside now and take a couple more pictures from different angles and send to you. Once again really sorry to annoy you again! (FYI-we are not sending the pictures with the malus prairie fire trees because we prefer to not have to plant them!) Thanks, Lesley
