Dear [REDACTED],

Please could you pass this message on to Jeffrey. Many Thanks.

My boy,

What we are looking for is a person or group who could help us on the following:

We are essentially a U.S. development company with a Michigan Inc. and LLC but the shareholders are not United States citizens. Therefore, we need to find an ownership structure that minimises U.S. tax.

Similarly, the accountants/lawyers should know about international law, as it may be favourable to have future profits remitted to a country other than the United Kingdom.

The problem that we currently have is that our lawyers/accountants in Detroit are in my opinion simply not 'worldly' enough, which adds to the confusion.

Your urgent help is most appreciated.

Best Wishes,

Julian
