---

Thank you for helping with my campaign. Today is the last day for reporting first quarter campaign contributions. Would you please e-mail or call any of your prospects who have not yet given \$100 (the maximum) and ask them to give on-line or send in a check today? (If they gave to the exploratory committee they can give an additional \$100 to the campaign committee). If you want a list of who has given, please call or e-mail Lauren Casper ([REDACTED] or [REDACTED]). Please ask your prospects to contribute using the unique link or contribution form we sent you a while back or you can forward them the following link [REDACTED] or the attached contribution form if they prefer to write a check.

We are doing very well on all fronts. Quinnipiac has us in a dead heat with Governor Malloy. We forced Malloy into the race a month earlier than he planned. Sentiment against this governor and his record is very strong all across the state. Voters affirm that I am the person with the qualifications and leadership they want to take the state in a better direction. Fundraising is going well. We are getting a lot of endorsements and lots of delegate support. But giving me some of your time today so I can qualify for the public financing would be a big help. Thank you,

Tom
