***Phone Bidding:** These lots qualify for Phone Bidding. Simply reply to this email, and list the lot numbers you wish to bid on along with the phone number(s) where you can be reached during the times noted. Below your lot listing is a brief outline of the process.

These lots are auctioned at the rate of approximately 175-200 per hour. This number could vary significantly based on a number of factors. We will attempt to call you 5 minutes in advance of the lot being auctioned. The approximate sale time for each lot below is in Central Time, and is an estimate

only. Lots will usually (but not always) sell within 30 minutes of the estimated time. Please plan accordingly. Good luck!

OUTLINE OF PROCESS

Preparation Call

Your personal phone bidding agent will call you the day of, or the day prior to your lots coming up for auction. They will go over all the lots you will be bidding on and tell you what the opening price will be. At this point, you can decide whether or not you want to proceed with the live floor bidding for each lot.

Live Auction Call

Your personal phone bidding agent will call you approximately 5 minutes before your lots come up for auction. Since we cannot guarantee how fast the auction will go, you need to be available to receive the call at least an hour before the scheduled call time (we prefer that you are available from the scheduled start time of that session) with a list of lots and descriptions.

Bidding Overview

When your lots come up for auction, your personal bidding agent will call out the lot number and opening bid. The bidding will be moving very fast at this time, and you will need to immediately confirm whether or not you will bid the next increment. A table of bid increments is provided below for your convenience. You may only place one cut bid per lot.
