Tremendous! Thank you so much. I will try to study up a bit on plantings and get back with you. I noticed my neighbors (the ones i have now at the [REDACTED] street address) have nice ground cover in Front of their wall. Maybe if you had some time you could go have a look and figure out what it is!?? Thanks, [REDACTED]

Hi [REDACTED].

I wanted to inform you that I will be working on formulating a landscape design / budget for the new house.The approach I have in mind will be a basic foundation landscape plan, seeded lawn vs sod and a irrigation system for both lawn and planting area.

As we had discussed , the foundation planting will incorporate the use of formed boxwood, holly, privet, hydrangea, perennials and other assorted greenery .

Any input from you would be most welcomed as I we begin to develop a cohesive landscape that will fit your current needs , as well into the future as add and enhance as budget allows.

Over the next week I will submit my proposal for your consideration.

Regards

Mike Hanafee
