Hello [REDACTED],

I can do 230 on Saturday. I may have my daughter if you don't mind. I will also need a plot plan of the house with the existing measurements.

Hello [REDACTED],

Do you have any time this week to meet me on the property. I would love to get a design started as soon as possible. Please let me know what time works best for you. And you do not need to send me a signed contract back for Oak St.

Hi Tom...I know we have spoken briefly about landscaping for our new house... it is time to truly start thinking on this. Do you think sometime over the next couple of weeks you could stop over and put together a landscape design proposal for me? I love the boxwoods you put in at our current home...they stay green, they are structured and don't require much maintenance... I don't like things that look like long weeds and grasses...I definitely prefer structure!

I know you sent me a new contract for our current home and I do want you to continue to mow and service us at 120 Oak until we move...we are then renting the house and we will suggest the renters keep you on for the lawn care! Do you want me to sign the contract and send even though we are moving? I will want you to bid on keeping care of the new lawn as well..!!

Lots to think about!

Thanks, [REDACTED]
