I called Optimum and they said the pole is there and they installed the cable from the street to the house...the next step is to get the actual cable boxes and remotes there ...you want me to get them in to do this?

This is what the town has as far as where your driveways and walks are going to go. I think the driveways should be a little less up front and a little more on the side. The driveway on the side should go right up to where the side door is because you will need to swing your car towards the door to get out of there.
