To cut to the chase. I will give Jeffrey the 5 stocks and he can see the performance of the issues. The 5 are in the powerpoint but in essence, I have 20 names. But the names are. The optical Tech name is Oclaro. OCLR. The 5bn transport is YRCW. The alt energy co. Is PEIX. Pacific Ethanol. The asset based Marine co is DHT Tankers. DHT. The microcap CLOUD co is RMKR. The New lbn metal bender is LIWA. You can chart these companies and see for yourself instead of beating around the bush DHT, YRCW, LIWA, OCLR, PEIX, RMKR. There you have it.
