Just boarding my flight to NYC.

We did not discuss Joe. I am sorry that I asked Axel how is he doing. Axel is leading his therapy and he is against Joe going to any therapy.

I know of few experimental approaches (such as one attached here) that could stop progression (or even reverse).

A part of my job is to constantly looking for what is the newest.

Regardless, I am sorry that this might cause any problem to you. I just wanted to help.

Not sure how to forward with all of it.

Please let me know.

All the best

Boris
