Hi Bob.

Under [REDACTED]'s Room:

-Why are there 2 shower trim kits #mts3715 and 2 shower heads #3715? There is only ONE shower in Ty's room? The Tub is just a tub, not a shower also?.I believe the quantity on both these items should be 1 ?

-Both Baths on the first floor (formal Powder and Mud Room Bath) should have the same faucet: the Kohler Rafinia #K5317 for \$166.59.Mike has no item # for the Mud Room Bath Faucet and it is priced at \$186.28?

-I thought we were only having ONE disposal at the main sink.the island sink has no electrical for a disposal and I don't think it's necessary.right?
(Insinkerator! I like that name :)

The rest of the invoice looks correct to me!

:) [REDACTED]
