Hey Jeffrey, how are you? I never heard back from you after our meeting! I thought you got the pitch. I am starting to see a lot of rotation in the market. The momentum darlings are starting to roll over and new leaders are emerging(my type of stocks). The bottom pickers are swooping in. My first 4 picks are 1bn alternative energy co. It will earn 80mm this year aand is trading at less than 60mm market cap. A 600mm asset co trading at 75mm market cap. A 380mm EBITDA co trading at a 200mm market cap. And finally a cloud company trading at 20mm which has a partnership with MSFT. I feel it will be a 10 - 50X play. Lots of money to be made. Please call me. Bruce
