Subject: Need some help from My Favorite Apple Guy.

Date: Mon, 30 Sep 2013 16:47:44 +0000

Hi Scott...not sure if you heard but Metro North is a mess (trains running at 33% capacity due to electrical issue) Therefore, I am working from home...ALOT

My contacts here at home are not working correctly and I wonder if it is something we can discuss over the phone? I have a triangle with an exclamation point sitting next to the word " iCloud" Also, when I send emails from this home computer, I can;t see sent emails from this computer on my computers in the city? I see them on my cell phone however...

My main concern now though is my contacts...

Or do I need to talk to the guy who installed my home computer...you know I will email him too...

thanks, Les
