---

I like the cosmetic bag way better! Everyone should have a cosmetic bag filled with these items...We will keep extra on hand in cosmetic bags as well. We will focus on the 'on hand' stuff tomorrow....lets get everyone off to the island today! thanks so much

Hi [REDACTED]

He also mentioned before, that he wants us to have an electric razor with us as well, which I gave to everybody. Also some of us have all the items mentioned packed together in a cosmetic bag, can we keep it that way, or a zip log bag is necessary?

Thanks.

Jeffrey would like you all to make sure whenever you are with him to always have Purell, toothpaste and a toothbrush for him. Just like he always wants his glasses to be with him, these items should be automatic as well. The small travel size toothpaste is perfect as well as the small size Purell. All should be kept in a zip lock baggie and the toothbrush should have a little "cover". What kind of toothpaste does JE like? Does anyone have time today to go and purchase 12 each of Purell, travel size toothpaste, toothbrushes and toothbrush covers? You each need your own Baggie with the 3 items to be kept in your purse. We will keep extras, ready to go in the Oval Office closet Please let me know if one of you has time today because we will want you to have these items with you starting today. Thanks! [REDACTED]
