Yes I can get it from the house. I will just have to get the code for the safe from [REDACTED] again as I destroyed it once I had used it last time I received it and didn't save it anywhere. [REDACTED] have left so I would bring it down to the office.

[REDACTED] if the paperwork etc will only be done on Monday I would prefer to leave the passport in the 71st street house over the weekend and only retrieve it on Monday.

Jeffrey would like his second passport renewed. Darren, is this something you would take care of? [REDACTED], we will need to send in this second passport, can you get in the safe at the house? The actual passport must be sent along with the application, pictures, letters and whatever else is needed to renew a second passport. [REDACTED] can you please bring the second passport to the office? ... once all the necessary paperwork has been provided, I can attach it along with the 2 passport photos I have and send it off for processing.

Below is a copy of the second passport
