Snow Day Ordering Tips

We value your Seamless patronage, and want to be sure that you get the best possible experience when ordering from us. During the storm, please follow this expert advice:

1. Allow extra time for your delivery. (We recommend ordering 30-45 minutes before [REDACTED] like to eat!)
2. Patience is a virtue. (In the meantime, try out a game of Angry Birds!)
3. Please tip well, as these guys and gals are freezing their tails off to bring you the foods you love!
4. We know that you and phone calls aren't BFF, but as a last resort, please dial the restaurant to make sure they received your order.
