Doctor says it is most likely my ears and this is not uncommon. She wants me to take a Claritin every morning till Monday and see if that helps! Not sure why it would, but will follow instruction and hope that it does help!

WHOA! Can not believe they just canceled and the party is THIS Friday!?? that is awful! do not patron that place. I won't either (don't even know where it is, but I won't go)

agreed on the clothing -- sometimes you just have to 'let go'  
didn't know that about banana fish. we've lost several fish. . . it's a good life lesson and it sounds like you handled it nicely

call the dr. and let me know tomorrow after you see him how it went

I dont mind on the dress...maybe turn it inside out first...I tell you, I have a lot of clothes from a long time ago that I still love, but you can just tell when things start to get old...elastic doesn't hold the same, armpits turn shiny, etc...as I told Ty when Banana Fish died (did we tell you that?) nothing lasts forever and we must cherish what we have when we have them (respect, etc...) When I was trying on swimsuits for Miami recently SO many of them just were faded and the elastic was not taugt anymore!

Yes, I want to go with the fact that it is my ears...need to put in a call to the doctor now..I am for sure eating pretty good. It has not deterred me much BUT I definitely am not hungry like normal.

So Tarrylodge CANCELLED on Tourmaline's party! Can you beleive that! they just called on Monday and said sorry we can't take your party anymore for this Friday! They scrambled and got another place in Stamford (and to tell you the truth, I'm happy cause it will now start at 7pm instead of 8pm) But I think it is SUPER lousy of Tarry lodge to do such a thing. Seriously puts a bad taste in my mouth for them!

hearing about your ears AND remember you were just sick w a bad cold --- it could very well be from that. But you should get yourself checked out. It's just equilibrium -- nothing more.

you are eating too, right?

that is a good idea about the dryer -- are you sure you don't mind

ok, thing is I am not stressed (I mean, not in the way you have been!) However, the doctor did say my ears were red and inflamed so possibly it is just the ear issue (geez I hope) Yes, I walk sideways in the morning...and when i commute and walk up and down all these stairs, I hold on to the hand rail...Ike wants me to go to the doctor tomorrow and have them check me out...maybe I will call the doctor and ask to speak to a nurse...don't like it at all though!

thank you for answering me!

Also, try putting the black sweater dress in your dryer for a bit...maybe that will help the armpit issue a tad?? maybe??

that is an equilbreum problem and be as simple as fluid in your ears --- maybe from laying down all night and then drains as you are upright more. . .???

I was having severe headaches a while back (when Pete first left Wallstreet) -- def. stress induced and I had to go for the MRI (then they called me back for and MRI w contrast. . . that was awful!) It boiled down to nothing.

I also had an equilibrium issue which REALLY scared me during my Kenny crisis in Texas -- it lasted a LOOOONG time (almost all day, I literally could not stand up - walked crooked) -- I think that was stress and not eating

can you walk in the morning without going sideways?

Ash, were you experiencing dizziness awhile back?? I recall you wanting to see a doctor for I think being dizzy...I can't shake this...feel really dizzy in mornings and then it sort of disipates, but it is scaring me. LEt me know what you did...
