Subject: GII autopilot update
Date: Wed, 28 Nov 2012 21:30:35 +0000

Jeffrey,
Meridian and Mars, are narrowing down the auto pilot to Pitch & Roll computer, or (Stab Augmentation Computer / which controls the Yaw damper),. hope to have a difinitve answer later tonight and locate a part in the morning,. will keep you posted,.

Paris weather is improving,.currently weather in Paris is 1700 broken, 6 mile vis, with Light showers in the area,,temp 36 degrees,
some sunshine in the afternoon, then ceilings lower in the morning with fog,.800 broker, with 4 mile visibility,.then clearing again,.

thanks,
larry
