>> Thanks. Engineering guy just came up. He said there has been an issue before in the bathroom (but he didn't really elaborate -- a valve or something). He said the handles in the shower really need to be lubricated (or I won't be able to get them to turn off tomorrow). He asked if I would be around later and I said I really needed to head out. He asked for the combination code to the apartment so he could return to fix the shower faucet handles. I decided to go ahead and give him the code. I'm not sure how you all handle security and codes with the staff here, but figured if the code needed to be changed, it could be, and I'm assuming everything in the apartment will be safe.

>> Phew. Glad the hot water is off. The apartment really is fabulous!! One of the most comfortable I've been in (next to 7J, I think).

>> The wifi in this apartment still doesn't seem to work. Not a problem since I can get on the 10B network.

>> Thanks for everything!!
