Les,

Apologies for the delay. Worked all night Monday. I will get over there today at 6. Let me know if that works. I need to replace an hp part so need to be able to get in.

Thanks,

Wm.

Hi Bill...the Large Black Box that holds our server(?) is beeping...I am the only one here and I have no idea why it is beeping...is there something I need to do? You need to do? Will it detonate soon?

:) please let me know or call me [REDACTED]

Thanks, Lesley
