Green Tea
K-Cups**

Green teas are made from leaves of the Camellia Sinensis plant, the same leaves as black tea. Green teas go through a process where the leaves are heated to prevent oxidation while black teas are oxidized for additional color and flavor. The result is a delicious tea that brews to a light golden color and unique flavor. Twinings Green Tea is a style called "Sencha", known for its smooth, mild characteristics.

Valid 03/27/12 thru 04/30/12; while supplies last; not valid with other offers.
