Bryce,

Here is what materials are needed for the main pool

- 100sq. ft. Waterline tile
- 3000 sq. ft. interior tile
- 90 bags thin set (gray)
- 10 gallons bonder
- 5 bags lime
- 12 bags common cement
- 30 bags sanded grout - color is up to you
- Sand

Are we signing contracts?

Bryce,

Could you please let us know when we can schedule coming in and moving the heat pumps to the outside. We will need to saw cut and breakout some concrete, run plumbing and electrical conduit out, that SHOULD be done in a day. We will need a pad poured at each location ( maybe Tom can help us out on that) then we can set units and tie them in. 3 days in a perfect world.

Also was the pool book with all plans and info turned over to you from Bills office? All the pool plans were in there. If not let me know and I will see what I can do to get another copy.

One more thing, I gave Gary and I believe yourself all the material, sq. footages, and small items that will be needed to put all tile in the main pool. Do I also need to locate that? Darren had sent an e-mail over wanting that list so he could get it ordered.

Thanks
