---

Hey Scott...my cell phone still does not have the calendar properly displaying my updates...can we pencil you in for tomorrow at 2:00? I am hoping that miraculously over night this issue is fixed...and if there is some other trouble shooting advice you have, I'll take it...

I did log on to gmail.com and brought up the calendar...I inserted my appointments and I see them all on my computer (so now I have them all doubled) but I don't see them on my cell (but possibly I have not given them enough time to come down from the cloud!)

... I need to ask if it is ok to have you come over and help me also...

just let me know if it would be possible for you to swing over around 2pm and help ...and hopefully I can confirm in the am tomorrow.
