That's fantastic ████, thank you –

Her name is ████████ (Jeffrey actually met her with me the last time we were over) – her flight lands at Newark at 21.15 so I would imagine she will be at the flat somewhere between 10 and 10.30 pm –

Hope to see you when I'm over - ██████

Hi ████...it is fine for your friend to arrive on the 25th. May I have her full name and approximate time of arrival on the 25th please?

thanks, ██████

Hi ████ – I just wanted to check if it was ok for Jan (my girlfriend who is staying in the flat with me) to arrive in NY on Sunday night 25th Sept rather than the 26th Monday as previously arranged. I will still be arriving on Monday evening but she has had to change her flight as she has to be back in the UK on Friday - I will still be leaving on the day flight on Saturday morning.

Thank you very much for the help - ██████
