Subject: Re: Fwd:

Tomorrow at 9:30 am Rich Daken an electrical engineer and Sean Rothstein a civil construction engineer who have been hired by Chartis Insurance will be coming to the house to do an inspection of house and construction site. They will be taking vibration and noise measurements. Rich please ask them to leave equipment or let's purchase equipment so we can track on a daily basis.

I am not sure what has been done to date. Rich please help Darren with this. Rich also please send me your email that you wrote to JEE and Darren so I have in my file. Thank you.

How are we recording noise levels? Can we get someone? Or is something in place already? I want to be able to demonstrate it is louder.
