---

Hi Jeffrey,

Attached are pictures and specs of G-V 681. This is one of the off market planes that we discussed. It will be coming onto the market next week.

It's a good looking plane with an aft galley configuration and a forward crew rest area - on Corporate Care.

As G-V's go this is a nice one. It's based in Wilmington, Delaware and is available to be seen.

I've had the opportunity to speak to Larry about the Boeing and our other discussions as well.

Let me know your thoughts

Best Regards

DB
