We have 6 girls apartments ([REDACTED], [REDACTED], [REDACTED], [REDACTED], [REDACTED], [REDACTED]) I think it would be best if we can try to get them all done every Wed. In order to do this, we may need to incorporate Leo to help out Tess and Isabella. I want to at least test this out...when we separate the days for cleaning (Example: 3 girls Monday and 3 girls Wed) we tend to always miss someones due to other circumstances and then get behind. I realize each week is a different situation due to Jeffrey's schedule, but if we have all 3 of them over there I think more will get accomplished. Do you think this is a possible scenario?
