Hello Dr. Ting! Hope you are well! Jeffrey has another assistant that will need to come see you soon...she has a cyst growing under a mole on her cheek...she has been to her dermatologist and was given a shot to help shrink the cyst and is on antibiotics now...but the recommendation is to have it removed..

Just wanted to give you the heads up we will be reaching out to you..

Thank you so much!  
Lesley  
Assistant to Jeffrey Epstein
