---

Jeffrey should advise in the morning whether not he will do this demo flight in GV  
See email below  
Tentative plan would be leave Wednesday morning from St. Thomas at 8 AM

**Subject: Re: Demo**

Larry,

As intimated we feel this is fair with the understanding the amount of fuel we add in St.Thomas equates to the same and covers our costs as discussed, double fuel plus crew.

I'm highly confident your boss will appreciate all the work we just finished and will enjoy the ride home.

Please feel free to call Susan or I anytime if we can do anything else and thank you very much for offering to take care of us upon arrival.

Respectfully,

Justin

Hi Susan and Justin

I know you're working the adjusted quote to include our fuel in St Thomas,

My boss has approved \$25,000 using my fuel in St Thomas to get you to TEB and home base,

Do you accept \$25k for demo flight?

Let me know, I'm in Atlanta now making my connection to Brunswick to pick up my GIV.,

Thx

Larry
