## Daily summary for [REDACTED]

Feb 13, 2017

### Class activity

#### Math 6

Julie Reeves, Nicole Graham

##### Announcement

**\*\*CHANGE OF DATE:** The Unit 3 assessment will now be on WEDNESDAY, FEBRUARY 15. Due to 2 days' worth of shortened periods and 1 snow day, we will have a full review Tuesday and the test will be Wednesday.

HOMEWORK Monday night - please complete review packet from the weekend. Use the answer key posted and come to class tomorrow with any questions.

Unit 3 assessment WEDNESDAY. Topics will include:

- 1) Ratios - a comparison of 2 quantities. **\*\*order matters!!\*\***
  - find the ratio of 2 quantities
  - find the simplest form of a ratio (a lowest-term fraction)
  - complete a ratio table (using the simplest form of the ratio and finding equivalent ratios (fractions))
  - solve ratio problems using a tape diagram **\*\*LABEL!!\*\***
- 2) Rates -- a rate is a ratio comparing 2 different "kinds" of quantities (i.e., time and money, or distance and gallons of gas used) - calculate unit rate ~ every ratio has 2 possible unit rates; the quantity you want ONE of goes on the bottom of the ratio ("per"="out of"=bottom of ratio), and you divide the top by the bottom to get ONE of that quantity. **\*\*LABEL!!\*\***
  - use the simplest form of a rate to solve rate word problems
  - convert from one unit of measurement to another
- 3) Plot (x,y) values from a table on a coordinate graph. **\*\*LABEL!! Order matters!!\*\***
- 4) Percent problems - decide what is the part and what is the whole (100%)
  - solve "percent of" problems using equivalent fractions and/or a picture/model. **\*\*LABEL. Read carefully\*\***

Use the review packet from the weekend to help you study, as well as your notes, old quizzes, and homework. Good luck! :-)
