Subject: Re: Hanger Flood due to Leak in Pipes in outside water pump house.!

Date: Mon, 24 Apr 2017 16:37:26 +0000

Hi Cecile

No., I'm in Miami now.,

All they have to do is go into the Pump station,, turn the valves on and they will see all the water they want spraying all over the place, just driving by and looking for water isn't going to do it,. The water is turned Off

Thx

Larry

Larry,

The maintenance crew is coming over and would like you to be there. They indicated to me that they saw no sign of water outside the hanger but would like to get into the hanger. Are you there?

With warm regards,

Cecile de Jongh

Hi Cecile

This leak has nothing to do with the roof leak, this leak is located in the Pumpstation outside of the hanger ground level

Since November I pointed out a leak in this pump station, Port Authority did nothing to repair as Daphne has email traceability, now there is a new leak in the same area of the original leak.

Thx

Larryv
