**Subject:** Re: Hanger Flood due to Leak in Pipes in outside water pump house.!

**Date:** Tue, 25 Apr 2017 18:22:25 +0000

---

Greetings LV,

Misha Marrero from the VI Port Authority management office called to give the latest update, per the maintenance department plumber's report of his findings:

1. The current pump is no longer operational. The new pump has arrived and will be installed tomorrow, 4/26.
2. Someone is tampering with the valves. Ms. Marrero is requesting that whoever is on the premises not to tamper with the valves.

Daphne,. Cecil,. Please help.,  
NO water in the hanger, No shower, cant wash the heli, cant flush the toilet, cant wash the dishes etc etc.,  
We have waited for 5 months for the first leak that you pointed out back in November of 2016 To port Authority,. Now there is another leak in the PVC pipes in the outside pump house of our hanger,. Someone knows about this, since the water was turned off., this needs to be fixed asap.,  
It's time we get Hanger Rent concession, or something in return,. This is crazy.,

Thank you,  
LarryV
