Hello ladies,
Please see below the updated list of Jeffrey's medical contacts. Please make sure you have them all saved on your phones and other electronic devices.
Th sequence of where to call in case of medical emergencies is the following:
1. If it is a true medical emergency call 911 first
2. If the situation is less serious and not that time sensitive, call Priority Private Care (if you are in New York). It is a private emergency room on East 77th Street. You will have to have a car to take you there, they do not send an ambulance)
3. After that call Jeffrey's doctors: his first choice is Dr. Moskowitz, after that Eva

Thank you!
