---

Dangene is recommending you purchase the new improved, better technology, 2 panel light over the one you saw at her office yesterday. It is also lighter and more mobile. OK for Dangene to order this new LED light for you over the Max + LED light you saw? They can have shipped direct to 71st ....

Hi [REDACTED],

I can't get a ton of info about the professional lights because this is a retail only website...

But the technology is the same, it's more advanced than the MAX led's because its been through all the FDA trials and has more deep infra red technology than any other LED.
